

FD120 A Classic Bifolding Door by Dutemänn

The FD120 is a classic Bi-Folding Door, that's anything but basic!

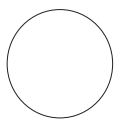

If you're looking for a mid-range high performance door, this Classic Bi-Folding door by Dutemänn is a true contender. Offering sightlines of just **120mm** along with **adjustable jambs**, this smooth bottom running system comes fitted with **bespoke designed hardware** with a maximum weight capacity of **120kgs per panel**, meaning even triple glazed sealed units are carried with ease.

The doors can open in or out, the sash and outer frame are both **70mm** in depth which gives excellent thermal values and is ideal for the replacement market. What's more, the FD120 Bi-Folding Door is **stocked in 3 colours** and also comes with a **Dutemänn 10 Year Guarantee**.
